

DIGITAL SIGNAGE FOR GOVERNMENT

Communicate. Inform. Engage.
Build Smarter Communities.

LiveSign's Live Media Player and CMS empower government entities to deliver real-time information, improve citizen engagement and enhance operational efficiency across every screen.

Citizen Engagement

Deliver timely, relevant information that keeps citizens informed.

Secure & Compliant

Enterprise-grade security with role-based access and data protection.

Centralized Control

Manage all screens and content from one powerful CMS platform.

Real-time Communication

Share alerts, updates and announcements instantly across all locations.

Operational Efficiency

Reduce manual effort and improve service delivery with automation.

Sustainable Solutions

Energy-efficient hardware and eco-friendly digital communication.

POWERFUL FEATURES. BUILT FOR GOVERNMENT.

Live Alerts & Notifications

Broadcast emergency alerts, public notices and important updates.

Queue Management Integration

Display queue numbers, counters and wait times in real-time.

Dynamic & Multilingual Content

Create and schedule content in multiple languages with ease.

Real-time Updates

Update content instantly across one screen or thousands of displays.

Video Walls & Multi-screen

Create impactful video walls and synchronize multi-screen layouts.

Data & System Integrations

Integrate with APIs, databases and government systems.

Scheduled & Automated

Automate content by time, date, location or department.
